---

Technical Skills

Proficient: JavaScript, Git, Node.js, Express, PostgreSQL (using Sequelize), React, Redux, HTML, CSS
Comfortable: p5.js, Matter.js, d3.js, MongoDB (using Mongoose), Material-UI
Foundational: C#, Mocha, Chai, Jasmine, Heroku

Projects

ekoPique | (July 2020) | *Full Stack Developer* | ekopique.herokuapp.com/
A webapp for visualizing popular and personalized Spotify data
- Managed teamwork by leading daily stand-ups and supportively pair programming
- Retrieved JSON data through Spotify's API, saving frequently used data in the server database
- Pulled back-end data and stored through React-Redux state management
- Rendered graphs with variable data using d3.js for data calculation

Rainbow On Me | (June 2020) | *Solo Developer* | rainbow-on-me.herokuapp.com/
An interactive website dedicated to showing your pride
- Rendered interactive canvas elements with p5.js
- Incorporated Matter.js to simulate a game world with physics
- Utilized p5.js with React to modularize and reuse canvas components

Plantagram | (June 2020) | *Full Stack Developer* | plantagram.herokuapp.com/
A mock e-commerce website themed around selling plants
- Led creation and establishment of social norms and work culture for the group
- Developed the "orders" feature using join tables with Sequelize
- Integrated a shopping cart using a combination of local storage and Redux state management
- Rendered a checkout page integrating forms and local state, saving database information

---

Experience

New York Live Arts | (Sep 2013-Oct 2019) | *Front of House Coordinator*
- Managed a small Front of House team for a 184-seat dance theater/black box hybrid space.
- Supervised a team of 2-5 staff members nightly from a rotating roster of 8-9.
- Engaged with and served 100-180 patrons per show night, 4-5 times per week.

Bodyworks DW | (Apr 2018-Dec 2018) | *Staff Massage Therapist*
- Provided advanced deep tissue massage therapy to 4-8 clients per week
- Personalized intake and outtake during 60-minute or 90-minute sessions
